**Nine Tests to Be Drilled In
Cotton Plant Sector.**

Special to the Gazette.

Cotton Plant, Jan. 17.—Plans are being made for five new test wells to be put down near Cotton Plant, making a total of nine tests to be drilled in leases Cotton Plant field. Trading in leases is brisk as the wells are put down north of here. L. P. Lively is rigged up and ready to spud in on the Price Perkins far m five miles northeast of town. John Watkins of Little Rock will make a new location about one mile from a test just completed three miles north of here. Sid T. Onyett, representing the Beaver Petroleum Company of East Texas, has several leases blocking acreage in the Bayou DeView district two miles east of Cotton Plant. Drilling will start on this block in February. The Rosser well at the four forks has been burning for the past 10 years.
